## Summary:

Front-end developer with 2 years of experience in building responsive and dynamic web applications using React JS, Redux, Bootstrap, CSS, HTML, and JavaScript. I seek a challenging role to leverage my expertise in modern front-end technologies and responsive design to create seamless user experiences and contribute to innovative projects.

## Key Skills

### Front End

- React JS
- Redux
- JavaScript
- Bootstrap
- CSS
- HTML

### Tools

- GIT
- NPM
- FireBase

### Databases

- MySQL
- MongoDB

### Back End

- Node JS
- Express JS
- Core PHP

## Work Experience

**LappyMaker Infosolutions, Pvt Ltd, Delhi**

**Web Developer**

**June 2023 To April 2024**

- Developed responsive, mobile-first, and dynamic web pages by converting Figma wireframes into code using JavaScript, Bootstrap, CSS, HTML, and Core PHP.
- Designed and launched five interactive web features that enhanced user engagement, resulting in a notable increase in visitor interaction time by 40 seconds on average across the site.
- Implemented industry best practices to improve SEO, page speed, and performance, achieving up to 95% optimization on GTMetrix and Google PageSpeed Insights.
- Identified and resolved backend vulnerabilities, sanitizing code to protect against SQL Injection and Cross-Site Scripting.

**Visdum Tech, Noida**  
**Front End Developer**  
**November 2022 To May 2023**

- Build and maintain efficient, reusable, modular UI components using React JS.
- Collaborate with backend developers to integrate APIs and ensure seamless data flow between front-end and back-end systems.
- Debug and troubleshoot issues within the React codebase.

**Education:**

Bachelor of Engineering: Electronics and Communication  
APS College of Engineering, Bangalore. Visvesvaraya Technological University
